

January 27th, 2014

To Whom It May Concern:

_____ DOB: _____ has Adrenal Suppression and his/her parents are required to carry on their person 2 Solu-Cortef Act-o-vials as well as needles and syringes for administration of the medication. This is to be used in the case of emergency or if he/she is vomiting or unable to tolerate his/her usual medication by mouth. This is a lifesaving medication and should be taken with him/her as part of carry-on luggage on the plane.

Thank you for your understanding,

Sincerely,

_____, RN
